SeyInsure Insurance Brokers

Insurance enquiry guide

Property and business interruption

Prepare a list of premises, insured values and existing protections. For interruption cover, discuss how long it could take to resume trading after damage.

Motor and fleet

Gather the registration, usage and value of each vehicle. Discuss driver information, the cover sought and any previous claims.

Liability and professional indemnity

Describe the services performed, turnover, client locations and contractual insurance requirements. Tell the broker about known claims or circumstances.

Personal cover

For home or contents, prepare an inventory and values. For travel, give destinations, dates and the cover needed.

Reviewing a quotation

Compare the limits, excesses, exclusions and policy conditions. Ask your broker to explain any differences before you select cover.
